We are here to give clear and honest answers to your concerns.

Concerns such as:

[info@titanmarineco.com](mailto:info@titanmarineco.com)

[www.titanmarineco.com](http://www.titanmarineco.com)

- Which shipping line is suitable for transporting my goods? and why ?
- Which insurance company is suitable for shipping my goods by sea and why?
- I want to buy or charter a ship. From which channel can I find the seller or the real owner of the ship? What is the process of buying or chartering a ship?
- I want to order a ship to be built. What is the process and how do I find a professional shipbuilder?
- I am the owner of the ship. How do I manage the ships in my possession from the crew and technical point of view?
- My ship or goods are damaged. What is the process of investigating marine accidents?
- I am looking to find a reputable insurance company. How can I find the best insurance company to insure my ships?
- I am looking to find a professional repair workshop to repair my ship's machinery and hull. How to choose the best repair workshop/shipyard and how to monitor his work process?
- I am interested in learning about risk management, sustainable maritime transport and knowledge management in the shipping industry. How can I increase my knowledge in these fields?
